Refrigeration-shop brochure

Refrigeration-shop.com is a division of Euro-Cold B.V.

Since 1990 Euro-Cold B.V. is located at Augsburgstraat 29 in Rotterdam. From this location, we supply components for the industrial refrigeration industry to our customers worldwide. We are official dealer of well-established brands like GEA-Bock, Castel, Frigomec, Vacon, REFFLEX®, Johnson Controls, Alfa-Laval and many more. Besides selling standard products Euro-Cold B.V. is a specialist in finding the right technical solution.

By purchasing the right quantities and having a 600m<sup>2</sup> warehouse, we can keep large stocks. This keeps the prices extremely competitive and the article you want is almost always ready to deliver immediately.

Worldwide delivery: we have contracts with the best global forwarders like DHL, FedEx, UPS and TNT to offer low shipping prices worldwide. Products will be properly packed with care.

## GEA-Bock compressors & spareparts

High quality compressors from GEA-Bock Germany

- Outstanding running comfort
- Efficiency and reliability on the highest level of quality
- Service-friendly, e.g. replaceable drive motors
- Oil pump lubrication
- Electronic motor protection

<https://www.refrigeration-shop.com/product-category/compressors>

**Over 35 models on stock in our own warehouse**

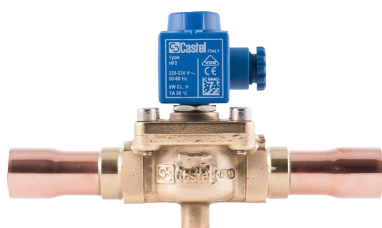

## Castel Appendages

Castel is a leading supplier of refrigeration and air conditioning components.

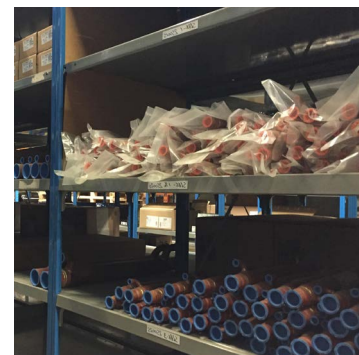

Our wide range of Castel products includes solenoid valves and coils, filter driers, filter shells, sight glasses, check valves, ball valves, services valve and many more.

Refrigeration-shop has many Castel products on stock for all kinds of refrigerants, including natural gases such as **CO2** and **R290**

## Frigomec Liquid Receivers & Separators

Frigomec produces for us liquid receivers, oil reservoirs, oil separators, liquid separators and mufflers. The liquid receivers are available up to a maximum permissible pressure (PS) of 90 bar.

Since 2012 the production has been extended with a location specialized in natural refrigerants such as **CO<sub>2</sub>, propane and ammonia**.

## Teklab electronic oil level regulators

- Suitable for mounting on crankcases of compressors
- Sight glass can be positioned on the left and right side.
- Equipped with integrated solenoid valve.
- Equipped with 4 status LEDs.
- Relay output for. low level alarm.
- Available in PS = 46 bar and 80 bar (CO2).
- Easy to connect by cords with connectors.

## REFFLEX® flexible hose and fittings

REFFLEX® offers a full choice of straight, angle and tee-connectors. The flared nuts are made of hot-forged brass as the best option for the refrigeration industry. Both straight and angle connectors have the swivel nut sliding backwards far enough to position a copper gasket whenever required. Access valve depressors are available for the 1/4" flare fittings.

REFFLEX® simplifies the connection of:

- Pressure switches
- Pressure transducers
- Manometers
- Water flow controls
- Fan speed controls
- Oil separators, level regulators (DN-5.0 mm)

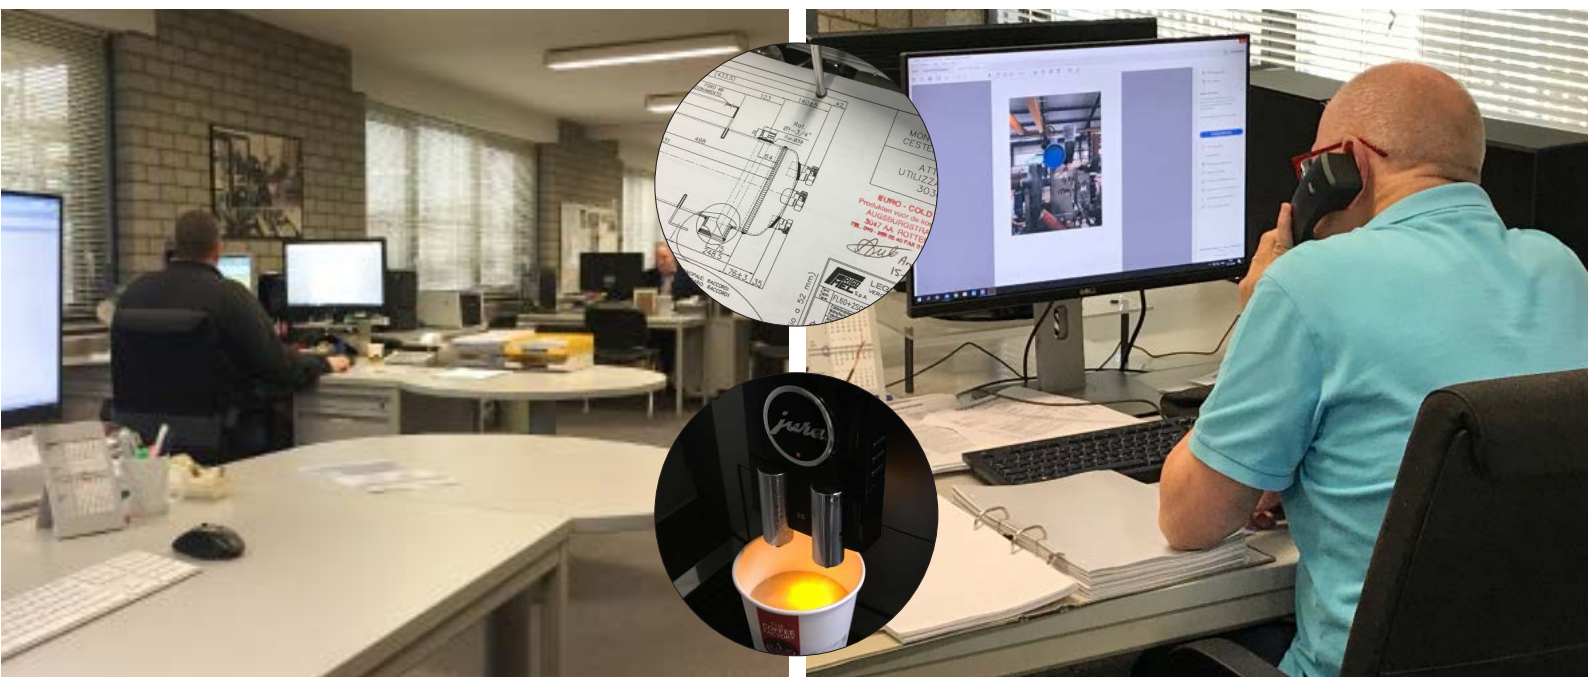

REFFLEX® tube complies to EN-1736.

## Other brands in our product range:

**VACON®**

Vacon® 100 flow frequency invertor

**TECNAC**

Tecnac liquid receivers, oil-liquid separators and mufflers.

**Johnson Controls**

From Johnson Controls we supply thermostats, pressure switches, pressure sensors and speed controllers for single-phase and EC fans.

**ONDA**

Onda Shell & Tube and brazed plate heat exchangers (BPHE).

**ALFA LAVAL**

Alfa-Laval Shell & Tube and brazed plate heat exchangers .

**dii**

Doucette suction line heat exchangers (SLHE)
